

GAYETY OF EASTER IN VIRGINIA COLLEGES

President Roosevelt Greeted by University Students.

RECEPTION TO HOGE CADETS

The Fellowships Chosen at Hampden-Sidney—Randolph-Macon Preparing for a System of Free Education—Female Normal School

UNIVERSITY OF VIRGINIA.—April 12.—The gayety of Easter week has been followed by a calm, and occasionally a little more rainy weather. A few visiting girls are yet in college, for they are loath to leave their dear friends and surroundings.

"The Easter Fairies," says College Topics, "were more pleasing than ever before, brighter, and even so, more beautiful; and to this state of facts is due many of the successes of the student body. Some of the young men who did find themselves addressing sweet sentences to members of the weaker sex, were never in the memory of their friends known to even cast a glance of admiration at any passing female; and others who felt that they were being scorned from their own ranks, and that these gentle creatures, did awake with a deep 'whisper'."

President Roosevelt, who passed through Charlottesville Monday evening on his way to the Charleston Exposition, was greeted at Union Station by a number of university students. When the boys gave the college yell, he said, "That cheer sounds as if a mine or an eleven was here." In his few remarks the President took occasion to refer to one of the University's most noted athletes, John Greenway, who was in Teddy's regiment. Another rousing yell greeted the close of the address and caused the Rough Rider to say, "Thank you. Good night to you in your next game. I would like to see you boys play Harvard. That is my alma mater, you know."

Not the least important of events of the past ten days was the spring initiation of the University. Quite a number of "old" boys were back at the University to take part in the initiatory soiree. The guests were as follows: Charles C. Tennant, of Richmond, Va.; Carroll C. Smith, of New York; Rufus N. Yarbrough, of Richmond, Va.; Malcolm J. Taylor, of New Orleans; Joe Clay Stiles, of Richmond, Va.; Sam Benet, of Louisville, S. C.; B. Taylor, of Norfolk, Va.; Charles S. Brown, of Lexington, Va.; T. Catesby Jones, of Petersburg, Va.; and Winston Parish, of Portsmouth, Va.

The Easter number of the University magazine has made its appearance in a most worthy and seasonable manner. Sam Benet has designed a very artistic and appropriate cover, and the contents of the number are as pleasing as its garb. The contributions are numerous, varied in character, and better in quality than are usually found. The short stories are very readable.

HAMPDEN-SIDNEY.

New Catalogue—The Fellowships Selected—Hoge Cadets on a Visit.

HAMPDEN-SIDNEY, Va., April 12.—The catalogue of the officers and students of Hampden-Sidney College for the 126th session, ending June 11th, has just been issued. Of the 100 students enrolled, Richmond furnishes 8, Petersburg 2, Danville 4, Hampden-Sidney 1, Farmington 1 and Norfolk 1.

During commencement week there will be a play by the Hampden-Sidney Dramatic Club and several Germans given by the Catillon Club.

The following gentlemen have been chosen by the faculty as recipients of the fellowships for next session: English and Mathematics, Mr. Hardy Cross, Hampden-Sidney, Va.; Latin and Greek, Mr. Houston Burger Moore, of Mossy Creek, Augusta county, Va.

The fellowships are awarded to the students of the senior class having the highest average of scholarship and department, carry with them the payment of \$200 each and the privilege of taking post-graduate work, looking forward to second degree, and giving as they do the holder his first experience as teacher under the trained guidance of the faculty, are especially valuable and desirable.

Both of these young men entered as sophomores in the college, and have been several times to represent the body on public occasions, and besides being on the Kappa Kappa Psi staff is now the editor-in-chief of the college magazine, a position which has afforded him abundant opportunity for the display of his fine literary abilities. He was born in Nansemond county, Va., and his academic education was gained at Norfolk Academy, of which his brother, Mr. Thomas P. Cross, '98, is now a professor.

Mr. Moore, the son of Mrs. John Moore, of Mossy Creek, Va., was born in Randolph county, Va., but later removed to Augusta county. Mr. Moore has taken a leading part in college affairs, and is a gifted and excellent student, and a member of Phi Kappa Phi Society.

Since the return of Dr. Richard McIlwaine, Professor John L. Armstrong, who has had two of his classes, has gone to Nashville, Tenn., and he will take the place of the principal, Dr. Blanton, while that gentleman is absent, on a European tour for several months.

The Phi Kappa Phi Society has chosen as final junior orators Messrs. Horace Jones, of Cheriton, Va., and Nickville Jackson, of Dutchman, Va., and as marshals Messrs. Frank Mann, of Nottoway, Va., and Daley Craig, of Craigsville, Va.

The entire corps of cadets of Hoge Academy accompanied the base-ball team when they played Hampden-Sidney, here the first of the week. The men under the charge of Commandant E. B. Fishburne, Captains W. W. Bondurant, '98, and

Tutt's Pills

Cure All Liver Ills.

A Strong Fortification.

Fortify the body against disease by Tutt's Pills, an absolute cure for sick headache, dyspepsia, malaria, constipation and all kindred troubles.

"The fly-wheel of life."

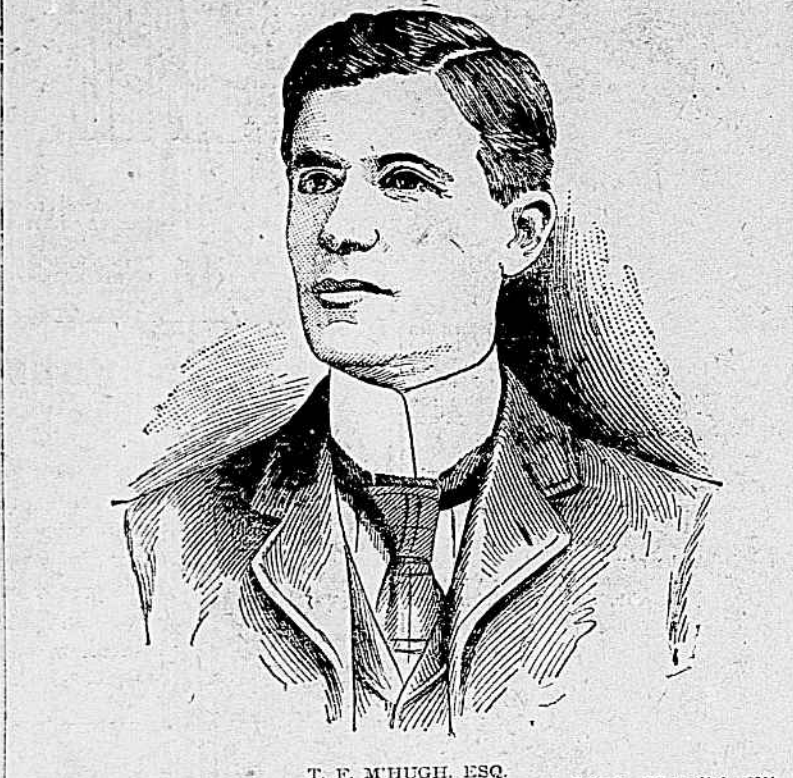

Dr. Tutt: Your Liver Pills are the fly-wheel of life. I shall ever be grateful for the accident that brought them to my notice. J. Fairleigh, Platte Canon, Col.

TUTT'S LIVER PILLS.

KIDNEY TROUBLE, LAME BACK AND RHEUMATISM

CURED BY SWAMP-ROOT.

To Prove What the Great Kidney Remedy, Swamp-Root, will do for YOU. Every Reader of The Times May Have a Sample Bottle Sent Free by Mail.

T. F. McHUGH, ESQ.

Tacoma, Wash., Nov. 29th, 1901.

DR. KILMER & CO., Binghamton, N. Y. Gentlemen:—It gives me great pleasure to add my testimonial to that of hundreds of others regarding the wonderful curative properties of Swamp-Root. I had a lame back three years ago before leaving North Dakota for the coast. Soon after my arrival in the Puget Sound country I became very much worse. I felt certain that I could not live in this climate. Later I became convinced that what I really had was kidney trouble, and that the rheumatism was due to my kidney trouble. The lameness in my back increased rapidly and I had other symptoms which indicated that I would soon be prostrated unless I obtained relief quickly. Noticing your offer of a sample bottle of Swamp-Root, free, I had a friend write for one and began taking it immediately. Within three weeks the lameness in my back began to disappear. During that fall and winter I took three one-dollar bottles of Swamp-Root with the result that I became completely cured. I no longer have pains in my back and can exercise violently without feeling any bad effects. I have recommended Swamp-Root to several of my acquaintances who were similarly affected, and without exception they have been greatly benefited by its use.

Yours very truly,

(T. F. McHugh.) *T. F. McHugh* 701 E. St., South.

Lame back is only one symptom of kidney trouble—one of many and is Nature's timely warning to show you that the track of health is not clear.

If these danger signals are unheeded, more serious results are sure to follow; Bright's Disease, which is the worst form of kidney trouble, may steal upon you. The great kidney remedy, Dr. Kilmer's Swamp-Root, is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves who have kidney ailments, because they recognize in it the greatest and most successful remedy for kidney, liver and bladder troubles.

EDITORIAL NOTE.—Swamp-Root has been tested in so many ways, and has proven so successful in every case, that a special arrangement has been made by which all readers of The Times who have not already tried it may have a sample bottle sent absolutely free by mail. Also a book telling all about Swamp-Root and containing many of the thousands upon thousands of testimonial letters received from men and women who owe their health to it. In fact, the book is a record of the wonderful curative properties of Swamp-Root. In writing, be sure and mention reading this generous offer in the Richmond Sunday Times when sending your address to Dr. Kilmer & Co., Binghamton, N. Y.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't mistake, but remember Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Thomas Hooper, '00, Mr. Hooper playing on the team.

Hoge Academy.

(Special Dispatch to The Times.) BLACKSTONE, Va., April 12.—A reception was given by the Young Men's Christian Association of Hoge Academy on Saturday night, April 6th.

The reading-room of the academy was decorated with evergreens, and the Hoge flag held a prominent position, being flanked between two stacks of guns. Much taste was displayed in the decorations, which were superintended by Mrs. E. B. Fishburne, Jr.

The chaplains were Mrs. E. B. Fishburne, Jr., Mrs. W. A. Dupuy, Mrs. T. P. Epes, and Mrs. C. R. Kuyk. There were about twenty couples present, and the reception was a grand success.

STATE NORMAL SCHOOL.

A Model Library to Be Established. New Class Rooms and Dormitories.

(Special Dispatch to The Times.) FARMVILLE, Va., April 12.—A model library for children and young people has long been a sore need of the State Normal School, and this institution, which has been a model of its kind for many years, is now taking the first step in supplying this want, have just been receiving. Among them were books on history and nature study, and also many stories of the purest, most excellent character. They were selected with good care and with a definite purpose in view beyond the direct benefit they will bring to the children of the Training School.

It is hoped that they will in time prove helpful also to the children of the State, especially in the country districts. The present collection will serve only as a nucleus, to which important additions will be made from time to time. The pupils' teachers will be made thoroughly conversant with the nature and purpose of this library, and will be urged to make every effort to encourage the formation of such libraries in the country public schools in which they will teach in the future.

The administration and friends of the Normal School heartily rejoice over the special appropriation of \$20,000 recently granted by the Legislature. With this money new class-rooms and dormitories will be added to relieve the present crowded condition of the school, and also provide for a further increase in attendance. The most important result of this appropriation will be a new training school. The present one is small and cramped, and inadequately supplied with the necessary material for the best work. The new one is designed to be a roomy, well-equipped, attractive model of what a public school should be—a daily object lesson to all young teachers to be sent into the State.

The Prince Edward County Teachers' Association, which met in the Assembly Hall of the Normal School Saturday, April 5th, proved to be of unusual educational interest. Dr. Robert Frazer and Hon. Henry St. George Tucker, field agent for Virginia for the Southern Education Board, were present, representing their organization officially. Mr. Tucker spoke in a convincing manner concerning the necessity of public education. Such a speech to the fair-minded voters and tax-payers of the Commonwealth should arouse enthusiastic interest in the improvement of common schools.

Professor J. D. Eggleston, of Knoxville, Tenn., then spoke on the rural schools of the South. His description of the rural school condition was followed by a strong plea for the public school as it should and could be. This excellent speech will no doubt bear fruit through the many public school teachers who heard it, and also through the young

ELECT MAJOR OF FIRST BATTALION

Meeting to Choose Major Lanier's Successor Held April 30th. Letter to Col. Anderson.

A meeting of the staff officers of the First Battalion of the Seventeenth Regiment, will be held on the 30th instant, to fill the vacancy created by the resignation of Major A. S. Lanier.

The resignation of Major Lanier was the outcome of correspondence between himself and headquarters, which arose over a notice sent out by Major Lanier some time ago to the heads of the various military organizations here relative to the trip to Charleston. The notice was sent in, it appears, without consulting Colonel Anderson. The correspondence resulted in the resignation of Major Lanier.

In his reply to Colonel Anderson, Major Lanier says that the meeting was a purely informal one and that he had no intention of taking any action without the knowledge and consent of the colonel commanding.

He disclaims any disrespect, or insubordination, I desire to observe further that the authority you assert, if carried to its logical conclusion, would make a humble judgment, and an only-sistered die of Cancer of the breast, and I am satisfied that I, too, would have been gone but for S. S. S. I felt some better after the first bottle, and after using only seven bottles, was cured. This was several years ago but have seen no signs of the Cancer since. I would urge all who are suffering from the disease to give S. S. S. a trial.

"I beg leave to further inform you that I am well aware of the fact that I have absolutely no authority over Company C, and as evidence of this, I have no right of that fact, in no instance have I ever attempted to exercise any authority over that command since I have been connected with the regiment."

"Presuming that in the future your policy will be in all respects the same as heretofore, as indicated in your letter, I am unwilling to remain in a service that compels me to subordinate my reasonable and proper independence and self-respect to such an interpretation of your power and authority, and thereby become a mere automaton."

"Holding these views and believing under all circumstances past and present that my resignation would be to the interest and welfare of the regiment, I have the honor to hand you the same under separate cover, which I ask that you approve and transmit to the Governor."

The name most prominently mentioned for filling the place of Major Lanier is that of Major E. Leslie Spence, Jr., Captain of Co. Saville, of Company A, Captain A. W. Miller and Captain C. Gray Bosseaux have also been mentioned.

Maj. Lanier yesterday afternoon received the Governor's acceptance of his resignation.

THE DISMAL SWAMP MONSTER

Killed While in the Act of Devouring a Dog.

(Special Dispatch to The Times.) SEAFORD, Va., April 12.—The Dismal Swamp monster, which for a time kept the superstitious population in a state of nightly terror, which was hunted and fired at by numerous parties, which ate dogs and other small animals to the consternation of many farmers, whose eyes at night shone with a phosphorescent glow that gave birth to stories which made people afraid to go home at night, was killed near the Dismal Swamp.

The animal was shot dead by a huntsman while it was in the act of devouring a dog just killed. The description is similar to that given of the beast before-hand. It looks more like a wolf than anything else. Crowds of people went to the scene and inspected the monster, whose body was left near the station where it died.

A POSSE IN PURSUIT.

A Husband's Desperate Encounter With Negro Who Assaulted His Wife.

(Special Dispatch to The Times.) CHARLOTTE, N. C., April 12.—While James White, a prominent farmer, who lives near Gastonia, was working in a field near his house this afternoon, he heard his wife scream. He ran to the house and found her in the clutches of a large negro man. As Mr. White entered the room, the negro released the woman,

ladies preparing to become teachers. At the afternoon session, Dr. Linus W. Kline, chairman of the Committee on Child Study, made a report on juvenile ethics. His report was compiled from answers to questions sent out to the children of the public schools, and showed something of the factors in children's ideas, some of their ideas concerning justice and the ownership of property, and something of their selfishness and also of their consideration for others.

Dr. E. W. Arnold, Jr., made an excellent talk on current history, discussing and interpreting current events in the political and commercial world, especially those of international interest.

Mr. T. J. Gardner, superintendent of public instruction for Prince Edward county, read a paper on county history.

Hon. Henry St. George Tucker was the guest of the school during his stay in the city. Mr. and Mrs. W. G. Edwards, of Buckingham county, visited their daughter, Florence, last week.

Misses Mary Jeffries and Lee Perry, who, on account of illness, had to give up their work, have gone home.

Mr. Otelia Harvie, of Amelia county, is suffering from a broken wrist, owing to a fall.

The following graduates visited the school during the week: Miss Grace Elican, '01, Buckingham; Miss Martha Painter, '96, Mrs. Cabell Flournoy, nee Miss Mary Boyd, '92, New Canton, Va.

RANDOLPH-MACON.

Free Scholarships Are Now the Plan The Base-Ball Team.

(Special Dispatch to The Times.) ASHLAND, Va., April 12.—For some time the authorities of Randolph-Macon have seen that to successfully compete with free State institutions of learning, there must be free tuition at the college here. Last fall Captain Irbey, in a speech before the West Richmond District Conference, held here, stated that an annual additional income of \$3,000 would bring about the consummation so devoutly desired. Since that effort, is being made to raise the money and it would seem the move is meeting with success since the Randolph-Macon College base-ball team, not in the least dismayed the Randolph-Macon College team. It is recalled that the Randolph-Macon College base-ball team, they met with a worse defeat even in their first game with Frederickburg, Chancellorsville, good material on the team and all that is needed is practice, which has been greatly interfered with by inclement weather.

CHEMICAL CO.'S PURCHASE.

Virginia-Carolina Company Acquires Two of Largest Plants in Field.

(By Associated Press.) NASHVILLE, TENN., April 12.—A special from Columbia, Tenn., says: The Howard and Ridley Phosphate Companies have disposed of their entire interest to the Charleston, S. C., Mining and Mineral Company for the sum of \$15,000.

The companies are two of the five largest in the field and immediate possession of the property is to be given.

The Charleston Mining and Mineral Company is a branch of the Virginia-Carolina Chemical Company, manufacturers of phosphate fertilizers.

Imp to Be Sold.

(By Associated Press.) CHICAGO, ILLS., April 12.—The famous black mare Imp is to be sold at auction. Her owner "Uncle Dan" Harness, of Chillicothe, Ohio, died recently. She is eight years old, and was retired from the track last season.

CANCEROUS ULCERS

develop sometimes from very trifling causes, and when and where you would least expect them. A boil, or abscess, burn, blister, wart, tumor, mole, or the simplest little pimple may be the beginning point of a malignant, frightful looking Cancerous Ulcer.

Apparently there is no difference between a Cancerous and Common Ulcer when they first make their appearance, and for this reason every ulcer, no matter how insignificant or harmless it may seem, and all slow healing sores should excite suspicion and cause alarm, particularly if any of your ancestors ever had Cancer, or you have good reason to think your blood is impure; for the sore, after all, is only the outgrowth, the external evidence of polluted blood, and nothing can check its progress until the cancer tainted, vitiated blood has been purified. All efforts to heal the ulcer by means of salves or other external remedies will result in failure, for such treatment can have no possible effect upon the deadly germs and morbid matter that form in the blood and are carried through the circulation to the sore.

MOTHER, TWO AUNTS, AND ONLY A SMALL SORE CAME ON THE INSIDE OF HIS LIP. SISTER DIED OF CANCER OF THE BREAST.

Had a Cancer on my left breast, which caused me great pain for three or four years. At times the pains were deep and shooting. The ulcer discharged yellow and rather offensive matter. I had given up all hope, as the doctors gave me no relief.

My mother, two aunts, and an only-sister died of Cancer of the breast, and I am satisfied that I, too, would have been gone but for S. S. S. I felt some better after the first bottle, and after using only seven bottles, was cured. This was several years ago but have seen no signs of the Cancer since. I would urge all who are suffering from the disease to give S. S. S. a trial.

Belton, Mo. MRS. JAMES CASSELL.

About the first of February, 1899, I noticed a small lump on the inside of my lower lip. It annoyed me considerably; the doctor cauterized it and in a few days it dropped off, but shortly after another came and broke into an open sore, and in spite of the large number of remedies I tried, it would not heal. I then went to another, and he gave me something to he would cut the sore out. I used his medicine, but received no benefit. I decided a blood purifier was what I needed, and began to take S. S. S. The ulcer was growing rapidly, with some pain and a crawling, creeping feeling. At first S. S. S. seemed to make the sore worse, but soon changed, and after I had taken seven bottles the place healed entirely; the general health improved and I am as well now as ever and no signs of the disease have been seen since.

Hollands, S. C. W. P. BROWN.

Hollands, S. C. W. P. BROWN.

Mr. Jno. Massie, Owensboro, Ky., writes:

"About three years ago a blister came on the right side of my nose. It grew steadily in spite of all efforts to heal it; the pain was not very severe at first, but increased when the sore began to inflame and discharge matter. At times the place would scab over and appear to be getting well, but the scab would drop off, leaving a red, angry looking ulcer. I had almost despaired of ever curing the Cancer when my attention was called to S. S. S., and after taking a few bottles the Cancer began to gradually grow smaller, the discharge stopped, and I was relieved of the terrible disease."

Belton, Mo. MRS. JAMES CASSELL.

About the first of February, 1899, I noticed a small lump on the inside of my lower lip. It annoyed me considerably; the doctor cauterized it and in a few days it dropped off, but shortly after another came and broke into an open sore, and in spite of the large number of remedies I tried, it would not heal. Hollands, S. C. W. P. BROWN.

Cancerous Ulcers can be reached only by a remedy that acts upon and through the blood system, and this is just what S. S. S. does. It goes to the fountain head of the disease, and drives out the germ producing poisons which cause the ulcer, and purifies and builds up again the deteriorated blood. This is the only true and logical treatment for sores of this character.

By the use of S. S. S. the ulcer is supplied with pure, strong blood, which quickly allays the inflammation and forces out all the irritating poisons, and allows the sore to heal naturally and permanently. S. S. S. acts also as a tonic, and where the constitution has become debilitated and weakened, it restores vitality and strengthens the nervous system, and helps the appetite and digestion. S. S. S. contains no Mercury, Potash or other minerals, but is guaranteed purely vegetable.

Those having a chronic ulcer or sore of any kind that is slow in healing, whether located upon the body or internally, will receive medical advice and such special information as they desire free of cost. Book on Cancer and Other Diseases of the Blood sent free.
